Essential Skills Series in Evaluation 10-Week Facilitated Online Session

THIS COURSE IS DESIGNED FOR THOSE WHO ARE NEW TO EVALUATION IN THE FEDERAL GOVERNMENT.

Register soon as we will be limiting group size to 20 to ensure maximum benefit to participants.

The Essential Skills Series was completely re-designed in 2014 by the Canadian Evaluation Society incorporating state-of-the-art thinking and modern adult learning principles.

Prior knowledge of evaluation, or of social science research methods, is not required, and this course is geared towards individuals who are new to evaluation. On completion, participants will be equipped to enter and participate in the evaluation field and to develop as evaluation professionals. Graduates will be able to describe in basic terms 28 core evaluation concepts – from the uses and benefits of evaluation through common data collection methods to evaluation ethics and standards – and will gain elementary experience in six core practices – from creating logic models to writing findings statements.

Participants will use the e-Institute online platform for course material, complemented by online group discussions and guest speakers addressing relevant topics.
